

## Analysis-locked finite-budget GEARS candidates

| Candidate           | Epoch | LR                 | WD                 | Role                 |
|---------------------|-------|--------------------|--------------------|----------------------|
| <b>GEARS formal</b> | 30    | $1 \times 10^{-3}$ | $1 \times 10^{-6}$ | reference recipe     |
| <b>A (best)</b>     | 30    | $2 \times 10^{-3}$ | $1 \times 10^{-6}$ | best sweep candidate |
| B                   | 20    | $1 \times 10^{-3}$ | $1 \times 10^{-6}$ | sweep candidate      |
| C                   | 30    | $1 \times 10^{-3}$ | $1 \times 10^{-5}$ | sweep candidate      |
| D                   | 30    | $5 \times 10^{-4}$ | $1 \times 10^{-6}$ | sweep candidate      |
| E                   | 40    | $1 \times 10^{-3}$ | $1 \times 10^{-6}$ | sweep candidate      |
